

International Kindergarten and Schools

Viborg, Denmark

International Kindergarten and Schools

Finding the right candidate for a vacant position is becoming increasingly challenging for many companies with some companies finding themselves in a position where they are unable to fill vacancies.

For the candidates, the job itself is often only one aspect of the decision to accept a job offer or not. Another is ensuring the right conditions for the accompanying family and their wellbeing in a new place. The availability of international daycare and schooling can here be a determining factor.

In Viborg, we are in a rather unique situation as we can offer children and young people with an international background or mindset international daycare and schooling from kindergarten to upper secondary school.

This international offer is the result of a great co-operation between Viborg Municipality's kindergarten Bulderby, Viborg private Realskole, Skals Efterskole and Viborg Katedralskole. Viborg private Realskole and Skals Efterskole are Cambridge-certified and Viborg Katedralskole is IB-certified. Thus, it is easy for the children to move from or to a school in another country as the curriculum and exams will be the same.

This leaflet only provides a snapshot of the kindergarten and the schools – there is much more behind these written words. So, if you would like to learn more about the kindergarten and the schools, please don't hesitate to contact them and arrange a visit.

A handwritten signature in dark green ink, reading "Ulrik Wilbek".

Mayor
Viborg Municipality

Kindergarten

Bulderby

The international group at the municipal kindergarten Bulderby is an offer to children who are expected to continue their schooling at an international school either in Denmark or abroad. Thus, the children in the group either have English as their native language or are learning English as their second language.

In the group, Danish cultural and educational values are combined with English language skills. The children's English language skills are developed through play and learning focusing on the individual child's linguistic proficiency and development as well as age.

The language spoken in the group is English but as the group is an integral part of Bulderby, where the main language is Danish, the children are also exposed to Danish and interact with the children in the Danish groups.

Primary and Lower Secondary School – Cambridge International Curriculum (IGCSE)

Viborg International School

Viborg International School is an integral part of Viborg private Realskole and caters for approximately 75 international students aged 5 - 17. The students come from a diverse range of cultural backgrounds. They are children of international parents residing in Denmark, Danish expats returning from abroad and internationally minded Danes.

Viborg International School follows the Cambridge International Curriculum (IGCSE) with English being the primary language of communication. However, all students are taught Danish at their own level and Danish

is available up to the Danish first language exam level (FP9).

Viborg International School has a 360° approach to education. Its goal is to produce well-balanced global citizens with a key emphasis on personal development and academic studies. Through play and social interaction, students are encouraged to become both confident and inclusive.

The IGCSE programme prepares the students for entrance into Cambridge A-levels, IB-programmes, Danish gymnasium, and international exchange programmes.

Lower Secondary School - Cambridge International Curriculum (IGCSE)

Skals Efterskole

Historically and culturally, the Danish Efterskole is a unique Danish boarding school offer for lower secondary school students.

At Skals Efterskole, Danish and international students can complete the IGCSE programme (Year 10 and 11) and achieve the academic level required to continue their education either on an international education such as Cambridge A-levels and IB-programmes or in the Danish educational system.

For Skals Efterskole's 160 students, boarding school reaches well beyond the curriculum – it is a shortcut to building new friendships.

Students get to live with and learn from peers from around the world getting to know new cultures. At Skals Efterskole, academic learning, homework, practical tasks such as cleaning and cooking, leisure activities, socializing with friends and good experiences go hand in hand.

Skals Efterskole's vision is to give students a stimulating curriculum of high academic quality combined with a strong feeling of community with their new friends, the teachers and the rest of the staff.

Upper Secondary School – International Baccalaureate (IB)

Viborg Katedralskole

With its 900 years of history, Viborg Katedralskole is the oldest institution of its kind offering the IB Diploma Programme in Denmark, and probably in the world.

Complete this highly recognised educational programme in two years - or in three with a preparatory PrelB year - and be prepared to apply for higher education all around the world.

Viborg Katedralskole offers beautiful surroundings, a neo-classical building with modern classrooms, new laboratories and a cinema. The teachers are highly trained, competent and friendly and know how to combine the well-known Danish pedagogical approaches and the focus on the individual student with the rigorous requirements of the IB Diploma Programme.

The boarding school, set in the school grounds, accommodates 140 Danish and international boys and girls aged 15 - 20 years. It provides a safe and homely atmosphere with four live-in teachers, full board, many activities and individual rooms.
